SUMMARY

Frontend Developer with over 4 years of experience implementing responsive user interfaces using JavaScript and TypeScript alongside React and Next JS. Skilled in collaborating with cross-functional teams to deliver high-quality web applications.

EXPERIENCE

Frontend Developer

My Kiyo   **August 2023 – Present, Remote**

· Spearheaded the development of an MVP web application leveraging React and Next JS, delivering the original platform within a tight deadline of 3 months.
· Implemented performance and accessibility enhancements using Vercel analytics and Google's Core Web Vitals, resulting in a ~50% improvement in page load times.
· Translated intricate Figma mockups into interactive and responsive user interfaces with React and Tailwind CSS, ensuring seamless user experiences and adherence to the website design specifications.
· Implemented Agile methodologies to enhance project delivery speed and collaboration, resulting in a ~30% reduction in development time.

Software Development Instructor

CodeWizardsHQ   **May 2022 – August 2023, Remote**

· Instructed a diverse array of courses including Basics of the Web (HTML, CSS, Javascript), User Interfaces (React, UI/UX, accessibility, performance) and Web Applications (Python, Flask, MySQL).
· Simultaneously managed 10–20 classes with 5–10 students per class, maintaining an average student grade of 90% across all courses.
· Actively contributed to curriculum refinement by identifying and rectifying deficiencies, resulting in an increase in student comprehension and engagement levels.

Frontend Developer

100 Devs Agency   **December 2020 – August 2023, Remote**

· Partnered with a diverse clientele to deliver modernized and responsive websites, leveraging a tech stack including HTML, CSS, JavaScript, and Python, alongside frameworks such as React, Node.js, Django, and Bootstrap.
· Continuously enhanced and maintained websites post-launch, implementing new features and updates as per client requirements, resulting in a ~65% increase in client retention and satisfaction rates.
· Focused on empowering local businesses to establish a robust online presence, simplifying the development process and providing educational support to maximize client value and engagement.

PROJECTS

Kiyo

My Kiyo · www.mykiyo.com · August 2023 – Present

· Spearheaded the end-to-end development of Kiyo using Typescript, React, and Next JS, completing the initial MVP in 3 months.
· Optimized performance and accessibility using Core Web Vitals resulting in over 50% faster load times.
· Leveraged Tailwind CSS to craft an intuitive user interface that meets and exceeds industry standards.
· Utilized Git and Github for version control and collaboration with other developers.

SKILLS

Javascript · Typescript · React.js · Next.js · HTML/CSS · Tailwind · Redux · Node.js · Express.js · MongoDB · PostgreSQL · Git · Github · Vercel · AWS · MySQL · APIs · REST · Agile · JSON · Unit Testing
